U. S. PATENT OFFICE

Jeannette Lighting

Catalog No. 50 represents the most popular and best selling items we manufacture.

Our water clear crystal glass is the finest quality and hand-made. The colors used are permanently fired into the glass and will not fade or deteriorate.

Tensolite white glass is most efficient and is used where good soft lighting of this character is desired.

We specialize in private mold items and solicit inquiries of this character.

Our prices are consistent with the high quality, hand-made glassware that we manufacture.
